Sir:

On March 1, 2004, Applicants filed an Information Disclosure Statement in which Korean Laid Open Patent Publication No. 1996-0031165 was called to the attention of the Examiner. However, when the Examiner returned the PTO-1449 Form with the Office Action of September 23, 2005, it appeared that the Examiner had not considered the document, as the listing of the document on the Form was crossed out. A telephone conversation on January 12, 2006 between the Examiner and representative for Applicant confirmed that the Examiner had not considered the document since no English language abstract or translation of the document was provided. During the telephone conversation, the Examiner indicated that the Applicant may file a Completion of Record with an English language abstract of the document, and then the Examiner would consider the document as originally submitted.

P24462.A05

Accordingly, Applicant resubmits the document, with an English language abstract, both of which are listed on an attached PTO-1449 Form. Accordingly, the Examiner is requested to initial the appropriate spaces on the attached Form and to return a copy of the completed Form to Applicant in due course.

Should there be any questions, the Examiner is invited to contact the undersigned at the below-listed telephone number.

Respectfully submitted,
Dall Hee JUNG
